

The 2011-12 season was another huge success here at Campos Viejos with all of our hunters having opportunities to harvest whitetails.

Campos Viejos 2011-12

Once again we took bucks scoring from 130 – to well into the 180's with our largest being Greg Hemmen's 187" monster.

With plenty of rain this spring, our summer food plots are thick and the deer are fat and growing giant racks.

Also this year we have expanded our operation and added several ranches and around 5,000 acres. All of our new ground is under the same management plan that has made Campos Viejos one of the top whitetail hunting destinations in all of south Texas. As a result, we are excited to offer an additional 15 hunts for the 2012 -2013 hunting season.
